Dear Coach (head coaches name),

Greetings from California! My name is Jane Smith and I play center mid on the Legends FC 97 National League team here in So Cal and I am still very interested in attending Wake Forest University in 2019 and playing soccer for the Deacons! I attended your game this fall against Long Beach State and was impressed with your possession style of play. As a midfielder, I enjoyed watching your attacking midfielder's ability to create scoring chances for her teammates, while still being able to find opportunities to be aggressive and find her own shot. I was also able to catch a couple of your ACC games online, and really enjoyed how your home crowd helped support the team during the Notre Dame game.

Personally, I wanted to give you a quick academic and athletic update:

For my first semester of my freshman year, I received a 4.13 GPA. That is the highest GPA possible I could have received based on the top level "scholars" classes I am taking.

I was given 4 stars by Top Drawer Soccer and ranked within the Western region

I have updated my profile to include a more detailed list of my academic and athletic accomplishments, as well as my latest highlights and articles. I have attached the following link to my profile: www.collegefitfinder.com/m/firstnamelastname/team#

Additionally, here is the link to my TRACE video highlights:
